

LilyPond's console messaging functions appear to be these seven:

ly:basic-progress  
ly:debug  
ly:message  
ly:programming-error  
ly:progress  
ly:warning  
ly:warning-located

Output messaging from this file:

GNU LilyPond 2.25.3 (running Guile 2.2)  
Processing `docs-basic-progress.ly'  
Parsing...

Top of file ...  
Inside music ...  
Bottom of file ...

Interpreting music...  
Preprocessing graphical objects...  
Finding the ideal number of pages...  
Fitting music on 1 page...  
Drawing systems...

Inside lambda ...  
The value of grob is #<Grob Clef > ...

Layout output to `docs-basic-progress.pdf'...  
Success: compilation successfully completed
